Source Document: SD-031
22. **Ailment/Diagnosis:** Lesion (Occipital Area)
Symptoms: not listed
Treatment Regimen: Cleanshield (Topical) - 3 times daily (morning, noon & night) – wetted with gauze
Result of Medication: **Mixed Result.** “After 10 days he visited...the pain had subsided, the “wound” shed off the upper crusty layer
; was soft to touch with palpable “hardness” inside. Application of Cleanshield was continued till I saw him again 28th Sept 2006. The hard core of the lesion has almost reduced to a vestige, but now smaller multiple vesicles dried up and others appeared in their state. That was mid October 2006. The lesion continues spread. At the last visit on November 10, 2006 it looked like the common psoriasis with strong margins and “advancing frontiers”
Length of time to achieve result: various results at different times – see source document
Name/Patient Details: O.J.; Male; 28 years old; Automobile Mechanic Student
Additional Notes: see source document
Source Document: SD-007
